

m\_strings::merge\_str

```
graph LR; A[m_strings::merge_str] --> B[m_strings::lenset]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'm\_strings::merge\_str'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'm\_strings::lenset'. Both boxes have a black border.

m\_strings::lenset
